Agenda
Community of Practice on ASD and other Developmental Disabilities
Theme: Medical Home
February 10, 2010
Sheraton Hotel
Madison, WI

Agenda

Objectives for the Day:
- Understand the concept of Medical Home
- Learn about ideas for implementing Medical Home strategies
- Know of tools that can be used for implementation (e.g., care plans)

Agenda

8:30  Registration

9:00  Welcome and Introductions

9:15  Making Connections
Update on Connections work
Brief updates from Practice Groups
Open Microphone for important announcements

9:45  Overview: Key Elements of Medical Home Implementation (Sharon Fleischfresser)

10:05 Selected Components of Medical Home

Identifying CYSHCN
Early and periodic developmental screening: What’s been happening in Wisconsin and why is it important (Mala Mathur and Chris Breunig)

10:35  Break

10:50  Improve Care Coordination and Collaborate with Community Resources
Co-management, Coordination across systems, communicating with specialists. A positive screening result puts a set of activities into motion for a primary care practice physician (PCP). This session will describe the steps a PCP takes to refer a child appropriately and then describes how children are co-managed across systems lines, with children with ASD as an example of Medical Home care coordination. (Drs. John Dunn and Jeff Crisco)
11:30  Engaging Families as Partners  
Partnerships with Families- Parent speaker to describe how having a Medical Home makes a difference for the family. (Meg Steimle)

11:55  Practice Group  
Explanation and instructions  
Three minute demo of Electronic Repository and information on ad hoc Practice Group.

12:15  Lunch

1:00  Practice Group Time
